PROFILE SUMMARY

A motivated and detail-oriented fresher with a strong foundation in Full Stack Development, UI/UX design, and an interest in machine learning. Proficient in HTML, CSS, JavaScript, Python, and Java. Passionate about creating user-friendly interfaces and building functional web applications. Known for a collaborative mindset, problem-solving skills, and eagerness to learn and grow in a dynamic environment.

INTERNSHIP EXPERIENCE

UI/UX Design Intern

Oct 2024 - Nov 2024

CODTECH IT SOLUTIONS

During my internship, I completed a set of UI/UX design tasks in Figma for mobile applications based on the provided guidelines and successfully delivered the required tasks within the stipulated time frame. This experience allowed me to enhance my design skills and understand the process of creating user-friendly interfaces.

PROJECTS

QUILL

- Contributed to the front-end development of QUILL, a SaaS platform with an advanced chatbot for querying, extracting, and summarizing PDF content using NLP and OCR techniques.
- Collaborated with the backend team to integrate UI components, enhancing user productivity and ensuring seamless interaction for precise information retrieval.

GYMRAT

[Link to Demo](#)

- Developed GymRat, a gym application with an intuitive UI/UX design to enhance the user fitness experience.
- Created wireframes and designed a visually appealing interface, ensuring seamless navigation and engagement with fitness-related features.

EDUCATION

Bachelor of Computer Science and Engineering

Jan 2021 - Apr 2024

Gayatri Vidya Parishad College of Engineering (Autonomous)

Score: 7.75 / 10
